New Era Pulse-TD NMR Sample Tubes for Benchtop NMR Instruments

For decades the Pulse/TD NMR sample tube has been used in the food industry for fat, oil and moisture analysis. Over the years new and exciting applications have evolved in the medical, polymer, pharmaceutical and biodiesel fields as well. To address this need, New Era has been offering a line of 10mm tubes for over 10 years and 18 and 25mm as more recent additions to the line. Try our samples tubes today and join others who are successfully using the product. You will be glad you did.
